

### 'Moon Is Blue' Selected for Summer Drama

The Hampton Players have announced their summer production will be "The Moon Is Blue."

The group has received the first non-professional acting rights to the play in this area. Thelma Ledwidge will do the directing.

She will be assisted by the following Torrance residents:

Dorothy Tunis, director's assistant; Johnny Rotolante, stage manager; Trudy Eustace, technical director; Buzz Varley, business manager; Claude Farrell, ticket chairman; Mickey Hauer and Pat Rogers, make-up technicians.

Carl Rogers, star of the group's last production, "Country Girl," will act as father of

Patty O'Neil, played by Mary Jo Pecora. Other members of the cast are Dave Riehl and Bud Hanger, both experienced in Little Theatre presentations.

**STEEL DEMAND**  
The U.S. auto industry uses 20 percent of the total domestic steel output.

### EVERTS' PAINTING OF MELON WINS ART PRIZE

Connor Everts, 29-year-old Torrance longshoreman and part-time college instructor, is one of sixteen prize winners in the current art exhibit of professionals now on view at Los Angeles County Museum.

Everts' painting, entitled "Still Life With a Melon," won a \$200 award.

The annual exhibition for artists of Los Angeles and vicinity is the largest competitive paint show for professionals held in the Southland each year.

Opening last Thursday, the art show will continue through June 26.

Everts, who lives at 4507 Spencer Ave., was awarded his diploma from Torrance High School while in service in 1946, edited the school paper there, and was enrolled in the art class.

For a year he studied in Chouinard Art Institute, Los Angeles, studied a year at El Camino College, spent another year as art student at the University of Washington in 1950, and then traveled to Mexico. There he assisted Alvaro Siqueros in preparation of a mural that adorns the walls of a hospital at Mexico City.

**Time Divided**  
He now divides his time between longshoring, painting, and teaching graphic arts at Palos Verdes College.

More than 400 works were submitted to the Los Angeles competition by 875 artists. Of these, 186 paintings and sculptures were picked for the exhibit.

**HISTORICAL TRANSFER . . .** Milton Kauffman (right) and Don Wilson (center) transfer check for \$863,580.80 to Jaime del Amo, representing Del Amo Estates Co., as first payment for purchase of the huge property now being developed by Kauffman between Sepulveda and Torrance Blvd., west of Hawthorne Ave. It is claimed to be the first sale of this land since it was granted to Juan Dominguez, del Amo ancestor, by the king of Spain in 1784.

### Historical Land Changing Hands For Developing

The new community, Southwood Homes, developed for veterans by the Kauffman-Wilson building organization at Hawthorne and Sepulveda, marks a milestone in Southern California history. The property, recently purchased from the del Amo Estate Co., is out of the hands of the original land grant family for the first time since the grant from the King of Spain in 1784.

The marriage of the late Suzanne Dominguez, descendant of Juan Dominguez, who obtained the grant, to Dr. Gregorio del Amo brought about the transfer from the Dominguez Estate to the del Amo Estate. The purchasers of the Kauffman-Wilson homes will therefore be the second families to settle on this land.

Approximately 1900 homes will be built at Southwood Homes, according to Lee Hallson, sales manager. Those now under construction have three bedrooms, two baths and two-car garages. Twenty-five different elevations are offered, based on eight floor plans. Standard features include knotty pine kitchens in a choice of five natural wood finishes. Waste-King disposals, ceramic tile

### Where Art Thou, Cousin Bernice?

Mrs. Mary Boggs, 2121 Arlington Ave., is seeking a cousin, reportedly now also a Torrance resident, whom she has not seen in at least 15 years.

When Mrs. Boggs was recently in Columbus, O., where both she and her cousin were born, she was told by relatives that the cousin now lives in Torrance, and is married, but the married name is not known.

She dropped by the HERALD office to put out a call for the "lost" cousin, now in her fifties, who before her marriage was named Bernice Bennett Korbil.

If the latter learns she is the object of Mrs. Boggs' search, she may reach her cousin by telephoning FAIRfax 8-4800.

**WATER NEEDED**  
About 25 gallons of water are needed to produce one gallon of aviation gas.
